

CHF Solutions to Exhibit at Heart Failure University

December 5, 2018

EDEN PRAIRIE, Minn., Dec. 05, 2018 (GLOBE NEWSWIRE) -- CHF Solutions (Nasdaq: CHFS), today announced that it will be exhibiting at Heart Failure University from December 7-9, 2018 at the Los Angeles Airport Marriott, Los Angeles, Calif.

"Heart Failure University is a unique venue as cardiology fellows are nominated and selected based on the distinct recognition of their future leadership as a cardiologist," said John Erb, chairman and CEO of CHF Solutions. "We believe that the clinically proven therapy that the Aquadex FlexFlow® System provides offers an alternative approach for the treatment of fluid overload patients when diuretics have failed. Ensuring that these future leaders have the knowledge and education about our technology is key to assisting them in making informed decisions when treating these patients."

About CHF Solutions

CHF Solutions, Inc. (Nasdaq:CHFS) is a medical device company focused on commercializing the Aquadex FlexFlow system for aquapheresis therapy. The Aquadex FlexFlow system is indicated for temporary (up to eight hours) ultrafiltration treatment of patients with fluid overload who have failed diuretic therapy, and extended (longer than 8 hours) ultrafiltration treatment of patients with fluid overload who have failed diuretic therapy and require hospitalization. All treatments must be administered by a healthcare provider, under physician prescription, both of whom having received training in extracorporeal therapies. The company's mission is to predict, measure, and control patient fluid balance through science, collaboration, and innovative medical technology. CHF Solutions is a Delaware corporation headquartered in Minneapolis, Minnesota with wholly owned subsidiaries in Australia and Ireland. The company has been listed on the NASDAQ Capital Market since February 2012.

Forward-Looking Statements

Certain statements in this release may be considered forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including without limitation, our plans for the Heart Failure University and the use of the Aquadex FlexFlow System for the treatment of fluid overload patients when diuretics have failed. Forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. Many factors could cause actual future events to differ materially from the forward-looking statements in this release, including, without limitation, those risk associated with our ability to execute on our commercial strategy, the possibility that we may be unable to raise sufficient funds necessary for our anticipated operations, our post-market clinical data collection activities, benefits of our products to patients, our expectations with respect to product development and commercialization efforts, our ability to increase market and physician acceptance of our products, potentially competitive product offerings, intellectual property protection, our ability to integrate acquired businesses, our expectations regarding anticipated synergies with and benefits from acquired businesses, and other risks and uncertainties described in our filings with the SEC. Forward-looking statements speak only as of the date when made. CHF Solutions does not assume any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
