# Fourth Quarter 2020 Financial Results

Revenue for the fourth quarter was \$2.0 million, an increase of 49.5% compared to \$1.4 million in the prior year period. For the fifth straight quarter, the Company achieved sequential revenue growth, with revenues in the fourth quarter having increased 7.4% sequentially compared to the third quarter of 2020. Revenue growth in the quarter was driven by increased utilization among established pediatric accounts, the addition of five new pediatric accounts, and strong performance in critical care accounts. As COVID-19 cases accelerated in the back half of the quarter, the Company saw an increase in the number of hospitals treating COVID-19 patients with the Aquadex SmartFlow. CHF Solutions ended the year with a total of 14 centers using the Aquadex SmartFlow to treat COVID-19 patients, up from three earlier in the pandemic.

Gross margin was 56.1% for the fourth quarter 2020, up from 50.8% in the corresponding period in 2019 and up from 46.1% in the third quarter of 2020. Gross margins for the quarter were favorably impacted by increased consumables volume and improved manufacturing efficiencies.

Operating expenses for the fourth quarter of 2020 were \$5.4 million, an increase of 5.7% as compared to the prior year period. The increase in operating expenses was primarily due to fully staffed sales territories and increased R&D expenses, up 10% as compared to the prior year period in 2019.

The Company recognized a gain of \$1.2 million in the fourth quarter of 2020 related to the dissolution of a foreign subsidiary in Australia. The gain relates to the realization of cumulative foreign exchange adjustments previously recorded on the balance sheet. Net loss for the fourth quarter of 2020 was \$3.1 million, as compared to a loss of \$4.4 million in the prior year period in 2019.

The Company used \$3.4 million of cash in the fourth quarter of 2020 to finance operations. Cash and cash equivalents were \$14.4 million with no debt as of December 31, 2020.
